CHILDREN AND FAMILIES

Improving Service Delivery to Youth in the Child Welfare System

The purpose of this funding opportunity announcement (FOA) is to develop and evaluate programs that promote the safety and well-being of children and families and that allow youth, where safe and appropriate, to return to families from which they have been removed, by building relationship skills to mitigate risk and to promote protective and resiliency factors in youth who have experienced trauma or abuse. Projects will target youth in the child welfare system, or those at risk of entering the child welfare system, including LGBTQ, pregnant and parenting teens, and other youth with significant risk factors.

Early Head Start University Partnership Grants: Buffering Children from Toxic Stress

The Administration for Children and Families (ACF) announces the Early Head Start University Partnership Grants: Buffering Children from Toxic Stress. These grants fund research activities to implement promising parenting interventions which augment ongoing Early Head Start services, in order to improve outcomes for the most vulnerable infants and toddlers. The purpose of this announcement is to report the availability of grant projects to promote knowledge of how Early Head Start programs can buffer children from the effects of toxic stress by supporting parenting/caregiving. Grantees will be required to demonstrate a partnership or partnerships with Early Head Start programs as an integral part of the research plan development and execution. They will implement a promising parenting interventions model, augmenting existing Early Head Start services, for those children and families at the highest levels of stress. The evaluation component will include a validation of the selected risk factors as indicating a risk for toxic stress, an implementation study of the parenting intervention, as well as a rigorous test of the effectiveness of the intervention. While many caregiving relationships can provide buffering effects, the focus of this announcement is on the parental (or primary caregiver, foster parent, or guardian if biological parents are not available) relationship.

U.S. Repatriation Program

The U.S. Repatriation Program (Program) was established in 1935 under Section 1113 of the Social Security Act (Assistance for U.S. Citizens Returned from Foreign Countries), to provide temporary assistance to U.S. citizens and their dependents who have been identified by the Department of State (DOS) as having returned, or been brought from a foreign country, to the U.S. because of destitution, illness, war, threat of war, or a similar crisis, and are without available resources. Upon arrival in the U.S., services for repatriates are the responsibility of the Secretary of Health and Human Services (HHS). The Secretary has delegated these responsibilities to the Administration for Children and Families (ACF) and to the Office of Refugee Resettlement (ORR). Temporary Assistance is provided in the form of a loan that must be repaid to the Federal Government. Temporary assistance, which is defined as cash payment, medical care (including counseling), temporary shelter, transportation, and other goods and services necessary for the health or welfare of individuals is given to eligible individuals in the form of a loan and must be repaid to the U.S. Government. Temporary assistance, which is not an entitlement, is available to eligible individuals for up-to 90-days. Periodic case revisions are performed to determine whether the person remains eligible for services. Repatriates are to collaborate with this periodic revisions, failure to cooperate may result in closing of the case. Temporary assistance is not retroactive. Certain temporary assistance may be furnished beyond the 90-day period if ACF/ORR finds that the circumstances involved necessitate or justify the furnishing of such assistance to repatriates and their dependents beyond the 90 day limit (42 United States Code (U.S.C.) 1313). In order to qualify for an extension of services, repatriates and/or representatives must submit their requests prior to the end of their 90-days of eligibility period in order to qualify. Necessary and timely supportive information must accompany the request for an extension. In addition, under the Program legislation, eligible individuals can apply for debt waivers and deferrals. Appropriate procedures are followed to make this determination. Repatriates should submit timely request for waivers and deferrals. Failure to submit timely requests may result in irreversible garnishment of available resources including federal and state benefits (e.g. SSI).

ENVIRON MENT

Invasive Species Outreach

As a multiple use resource agency, the Bureau of Land Management is charged with ensuring self-sustaining populations and a natural abundance of diversity of wildlife, fish and plant resources on the public lands of the western United States. Currently, invasive species, nonnative, harmful plants and animals, are one of the greatest threats to natural ecosystems. This project will help encourage the public to prevent the spread of invasive species through targeted outreach.

NIDCD Research On Hearing Health Care

This funding opportunity announcement (FOA) issued by National Institute on Deafness and Other Communication Disorders (NIDCD) invites Exploratory/Developmental Phased Innovation (R21/R33) grant applications to support research and/or infrastructure needs leading to more accessible and affordable hearing health care (HHC). For the purposes of the working group and this FOA, hearing health care includes assessment (including screening) and nonmedical treatment and rehabilitation of HL, including hearing aid selection and fitting and aural rehabilitation (counseling, auditory training). The proposed research aims should lead to the delivery of better healthcare access and outcomes and be directed to solutions that are effective, affordable and deliverable to those who need them. Outcomes research and health services research related to accessible and affordable hearing health care are also responsive to this FOA. This FOA provides support for up to two years (R21 phase) for preliminary /development studies, followed by possible transition of up to four years of expanded research and development support (R33 phase). The total project period for an application submitted in response to this FOA may not exceed five years.

Housing Opportunities for Persons with AIDS

Grants funded under this initiative will advance HUD's implementation of the National HIV/AIDS Strategy (NHAS). This NOFA also addresses the Department's Fiscal Year 2010-2015 Strategic Plan and the Opening Doors Federal Strategic Plan to Prevent and End Homelessness. These actions address goals to: prevent and end homelessness; increase the supply of affordable housing; and increase the coordination of mainstream housing resources and other health and human services. This NOFA announces funds available for projects that address both: (1) direct housing assistance and service delivery to low income persons and families living with HIV/AIDS, including homeless individuals and families; and (2) comprehensive planning and coordination of local resources in meeting housing and service needs of the population. As a result of project efforts, communities will be assisted in the development and use of an Integrated HIV/AIDS Housing Plan (IHHP) to be issued at the end of the third year of operation. The IHHP is an administrative function and should demonstrate local system changes in the delivery of housing and services. Grantees are expected to provide housing assistance to eligible persons in their communities while concurrently examining and comprehensively integrating local services for coordinating and streamlining where possible the delivery of those services in your community.

2011 Emergency Management Performance Grants (EMPG) Program Region 8 - Fiscal Year (FY)

Purpose: The purpose of the FY 2011 EMPG Program is to make grants to states to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards. Eligible Applicants: The SAA or the state's Emergency Management Agency (EMA) is the only entity eligible to apply to FEMA for EMPG Program funds on behalf of state and local emergency management agencies, however only one application will be accepted from each state or territory. All 56 states and territories, as well as the Republic of the Marshall Islands, and the Federated States of Micronesia, are eligible to apply for FY 2011 EMPG Program funds.

Engaging Men in Preventing Sexual Assault, Domestic Violence, Dating Violence, and Stalking Program - OVW FY 2011

This solicitation contains information on how to apply for the Engaging Men in Preventing Sexual Assault, Domestic Violence, Dating Violence, and Stalking Program (Engaging Men Grant Program). About the OVW Engaging Men in Preventing Sexual Assault, Domestic Violence, Dating Violence, and Stalking Program As the movement to end violence against women continues to evolve, there is increased recognition that developing primary prevention strategies is an essential component of the work. At the same time, many experts agree that it is imperative to involve men and boys in these efforts, if we expect them to succeed. In fact, in a recent national poll, 73% of American men said that they think they can help reduce domestic violence and sexual assault. The Engaging Men Grant Program creates a unique opportunity for OVW to support projects that create public education campaigns and community organizing to encourage men and boys to work as allies with women and girls to prevent sexual assault, domestic violence, dating violence, and stalking. Research shows that programs that simultaneously do community outreach, mobilization and mass-media campaigns are more effectiveness in producing behavior change in men and boys. These efforts will be conducted by community-based, state and tribal entities across the US. This is the first time in the history of OVW that a grant program focuses primarily on the prevention of violence against women and girls and acknowledges the critical roles men play in this prevention. The program will support multi-faceted strategies that involve men as allies, active positive bystanders and influencers of other men and boys. The program aims to develop new male leaders in the field, willing to publicly speak and act to oppose violence against women and girls and create a ripple effect, encouraging men in many more states and communities to get involved.

Services for Victims of Human Trafficking - OVC FY 2011

Multiple discretionary grants of \$200,000 to \$400,000 will be awarded to victim service organizations to provide timely, high-quality services to victims of human trafficking as defined by the Trafficking Victims Protection Act of 2000, as amended, and to enhance interagency collaboration and coordination in the provision of services to such victims. Funding will support either a comprehensive array of services for trafficking victims in specific geographic areas or specialized mental health or legal services over larger geographic areas; as well as efforts to increase the capacity of communities to respond to victims through the development of interagency partnerships and public outreach and awareness campaigns. Grantees must have a demonstrated history of providing trauma-informed, culturally competent services to male and female victims of sex trafficking and labor trafficking. Applicants are limited to victim service organizations with a demonstrated history of providing trauma-informed, culturally competent services to victims of human trafficking. By statute, grants under this program may be awarded to states, units of local government (including federally recognized Indian tribal governments as determined by the Secretary of the

Interior), and nonprofit, nongovernmental organizations (including tribal nonprofits). For the purposes of this program, a unit of local government is any city, county, township, town, borough, parish, village, or other general purpose political subdivision of a state.

TRANSPORTATION

Accessible Transit Services for All Populations

The Federal Transit Administration (FTA) is soliciting proposals that will examine ways to provide ADA complementary paratransit in a more efficient and cost-effective manner, while maintaining compliance with the DOT ADA regulations (49 CFR Parts 27, 37, and 38), and identify those factors that prevent persons with disabilities from using the regular accessible fixed-route system. FTA has budgeted up to \$500,000 for this project. FTA will accept applications targeting the following activities: These factors can include the reliability and availability of an accessible fixed-route system and environmental barriers that prevent travel to and from boarding points. The research will analyze operational practices, and assess the cost savings and effectiveness of the practices and their relationship to increased fixed-route use by riders with disabilities. Practices assessed will include (1) implementing various types of paratransit eligibility processes, including conditional eligibility; (2) surveying and improving bus stops and path of travel to bus stops and stations; (3) incorporating travel training; (4) incorporating feeder service; and (5) assessing and ensuring fixed-route accessibility, including elevator and lift maintenance and stop announcements/route identification. Additional practices that promote the use of technology, examine scheduling and operating services, cost savings and enhanced mobility, and best practices or management of contracting services may be identified during the project.
